

Peptamen® Junior

Vanille

PEPTAMEN® JUNIOR is a hydrolysed whey-based formula for the dietary management of disease related malnutrition in children above one year of age with malabsorption and/or malnutrition.

Important notice: Use under medical supervision. Suitable as a sole source of nutrition. For oral/enteral use only. Suitable for use in children above 1 year.

See enclosed leaflet for dosage instructions and nutrition information.

Ingredients: Malto-dextrin, enzymatically hydrolysed whey protein (MCT), sucrose, medium chain triglycerides, potato starch, vegetable oils (rapeseed, sunflower), emulsifier (lecithin), mineral calcium carbonate, potassium phosphate, sodium chloride, magnesium chloride, calcium chloride, ferrous sulphate, zinc sulphate, manganese sulphate, copper sulphate, potassium iodide, sodium selenate, chromium chloride, sodium molybdate, folic acid, ascorbic acid, niacin, riboflavin, vitamins C, E, niacin, calcium pantothenate, B6, A, B1, B2, folic acid, K1, biotin, D3, B12, inulin, L-carnitine, L-cysteine. Gluten free. Packed under protective atmosphere. Store in a cool, dry place.

PEPTAMEN® JUNIOR ist eine vollaminoamino Säuregehaltige essbare als Trink- und Sondernahrung.

Wichtige Hinweise: Unter ärztlicher Aufsicht verwenden. Unter medizinischer Kontrolle verwenden. Zur ausschließlichen oder ergänzenden Ernährung geeignet. Nicht zur parenteralen Verwendung. Geeignet für Kinder ab 1 Jahr.

Nährwerte und Gebrauchsanweisung siehe Informationsblatt unter dem Deckel.

Zutaten: Malto-dextrin, Maltoseweißhydrolysat (aus Malt), Saccharose, mittelkettige Triglyceride, Kartoffelstärke, pflanzliche Öle (Rapsöl, Sonnenblumenöl), Emulgator (Sojabohnen), Mineralstoffe (Calciumcarbonat, Kaliumphosphat, Natriumphosphat, Natriumchlorid, Magnesiumchlorid, Calciumchlorid, Eisenoxid, Zinkoxid, Manganoxid, Kupferoxid, Kaliumiodid, Natriumiodat, Chromoxid, Natriummolybdat), Aroma, Säureregulator (Chromsäure), Chininbitter, Vitamin C, E, Niacin, Pantothensäure, B6, A, B1, B2, Folsäure, K, Biotin, D3, B12, Inulin, L-Carnitin, Glutamin und Cysteinin. Unter Schutzatmosphäre verpackt. Lagerung: kühl und trocken lagern.

PEPTAMEN® JUNIOR à base de protéines hydrolysées de lactosérum, nutritionnellement complet, pour une nutrition entérale orale ou par sonde. Pour les enfants nutritionnels en cas de dénutrition ou risque de dénutrition des enfants avec une fonction digestive altérée, syndrome de malabsorption. Convient des l'âge de 1 an. Ne peut pas être utilisé par voie parentérale (IV).

Asis importante: Utiliser sous contrôle médical. Peut être utilisé comme seule source de nutrition ou en complément de l'alimentation. Convient des l'âge de 1 an. Ne peut pas être utilisé par voie parentérale (IV).

Pour les informations nutritionnelles et les instructions de dosage et préparation, voir la notice d'informations insérée sous le couvercle.

Ingredients: Malto-dextrin, protéines hydrolysées de lactosérum (MCT), saccharose, triglycérides à chaînes moyennes, amidon de pomme de terre, huiles végétales (colza, tournesol), émulsifiant (lécithine de soja), minéraux (carbonate de calcium, phosphate de potassium, phosphate de sodium, chlorure de sodium, chlorure de magnésium, chlorure de calcium, sulfate de fer, sulfate de zinc, sulfate de manganèse, sulfate de cuivre, iodure de potassium, sélénate de sodium, chlorure de chrome, molybdate de sodium), fer, acide ascorbique, acide nicotinique, acide pantoïque, biotine, vitamine C, E, niacine, acide pantothénique, B6, A, B1, B2, zinc, sélénium, molybdène, fer, acide folique, K, biotine, D3, B12, inuline, L-cystéine. Sans gluten et sans carnéogènes. Conditionné sous atmosphère protégée. Conservation: Conserver au frais et au sec.

Wichtige Hinweise: Verwendung nach ärztlicher Aufsicht, nur als Nahrungsmittelersatz (nicht als Ersatz für eine vollständige Ernährung). Geeignet für Kinder ab 1 Jahr. Nicht für parenterale Ernährung geeignet. Unter ärztlicher Aufsicht verwenden. Unter medizinischer Kontrolle verwenden. Zur ausschließlichen oder ergänzenden Ernährung geeignet. Nicht zur parenteralen Verwendung. Geeignet für Kinder ab 1 Jahr.
